Hollowcore Roof & Floor Systems

Discover a home's hidden potential for additional space with Hollowcore

Maximize space in any house plan for approximately \$20 per square foot with Hollowcore Roof and Floor Systems from County Materials. Create extra living and storage space by using a home's entire footprint, even neglected space available under a garage, porch or stoop. As more residential covenants dictate restrictions, hollowcore helps owners gain usable space available under or over a garage, porch or stoop.

Hollowcore also offers a sensible solution for creating a comfortable living environment. With sustainability at the forefront of many building decisions, hollowcore offers high fire resistance and efficiently reduces energy costs by maintaining constant temperatures.

Open up a roomful of possibilities:

- Second garage
- Sport court
- Swimming pool
- Workshop or hobby room
- Security room
- Home theater
- Family play or game room
- Exercise room
- Storage room
- Wine or food cellar

CORE**
ROOF & FLOOR SYSTEMS

Hollowcore Roof & Floor Systems

Discover Hollowcore's impressive advantages:

- Accommodate high load capacities over long spans (for tile and stone floors, fireplaces, wall partitions, columns, even oversize vehicles)
- Create wide open spaces without columns, trusses and joists
- Speed construction and cut costs
- Allow for all-weather installation
- Resist fire, wind, insects, animals and mold
- Lower insurance costs
- Enhance acoustics, minimize more noise than other sub flooring
- Maintain temperature & comfort
- Reduce heating/cooling costs
- Protect investment and valuables

Hollowcore is easy to work with and accommodates other building trades. It can be installed on steel frames, Insulating Concrete Forms (ICFs), masonry or concrete walls – with no special requirements. Constructed with high-strength, steel-reinforced concrete, hollowcore plank is available in 8, 12 and 16-inch heights. It also meets IBC and UBC standards and UL fire ratings up to three hours.
