ICFs *Insulating Concrete Forms*

Build environmentally friendly, energy-efficient homes

Help homeowners cut monthly energy bills as much as 50-80 percent by building with Insulating Concrete Forms (ICFs). ICFs provide a lasting building envelope that is both energy-efficient and cost-effective, allowing homeowners to enjoy significant savings and a comfortable living environment.

ICF construction helps conserve lumber; a typical two story home can save up to 13 trees. Added to this, concrete that fills the forms is one of the most inert building materials in use. With traditional stick building, moisture can become trapped within the open cavity of a wood stud wall, causing mold, mildew and rot problems. Since ICF's are closed cavity construction, they provide durability that outlasts other building materials.

ICFs *Insulating Concrete Forms*

ICFs and Hollowcore Roof & Floor Systems are available from these locations:

CENTRAL DIVISION

- Antigo, WI** (715) 623-3775
- Marathon, WI** (715) 848-1365
- Merrill, WI** (715) 848-1365
- Stevens Point, WI** (715) 341-0991
- Wausau, WI** (715) 842-2288
- Weston, WI** (715) 359-7731
- Wis. Rapids, WI** (715) 423-7339

WESTERN DIVISION

- Eau Claire, WI** (715) 834-7701
- La Crosse, WI** (608) 781-3615
- Rice Lake, WI** (715) 234-8145
- Roberts, WI** (715) 749-4121

ICFs provide cost savings & long-term value:

- Shorten construction time
- Enhance comfort and safety
- Cut energy costs
- Reduce size of heating and cooling units
- Reduce airborne dust and allergens
- Minimize outside noise
- Withstand severe winds
- Resist fire
- Enhance resale value
- Offer opportunity for energy efficiency mortgages
- Lower insurance premiums
- Eliminate costs for furring or insulating basements
- Minimize maintenance costs

Ease of use combined with design flexibility

ICFs accommodate today's most popular home design features, including curved walls, bays, cathedral ceilings and larger openings. Even custom window designs and angles are possible. In addition, you can select a variety of interior and exterior finishes, such as brick, tumbled masonry or other material.

For more details on ICFs, contact a County Materials' sales representative.
