## PERMEABLE PAVERS

Our Rejuvenate™ Permeable Paver, manufactured with Genesis Face-Mix Technology, combines functionality and design into one permeable paver unit. Manufactured with ease of installation and ADA compliance in mind, Rejuvenate Permeable Pavers incorporate a pressed spacer that creates a consistent edge for machine lay applications, as well as being optimally sized for hand lay applications in an easy stitch pattern when needed.

*The color photos shown in this catalog were prepared with careful attention to accuracy. However, colors shown may vary from actual hues and should only be used as a guide. Refer to actual product samples for final color selection. Because concrete units are manufactured with high quality, naturally-mined aggregates and materials, variations in color or shading should be expected in products that are manufactured at different times and in units having different shapes. This color or shading variation is acceptable in the industry.*
