

# Skylands™ Concrete Deck Pavers

Raise the status of your roof or patio area with Skylands Concrete Deck Pavers. Adjustable pedestals allow for easy installation and can turn pitched roofs into a flat usable surface.

Skylands Concrete Deck Pavers – Vision

**Skylands™ Concrete Deck Pavers** are lighter than the industry average; the 24" x 2" x 24" (nominal size) slabs are 24 lbs/sq. ft. Building owners are turning to concrete deck pavers for enhancing previously unusable spaces because of their many advantages:

- Prevents water damage with open joints
- Lengthens roof membrane lifespan by stopping harmful UV rays
- Seamlessly integrates with green roof features
- Roof components below slabs are easily accessible

## Sizes & Patterns Skylands Concrete Deck Pavers

### For on grade applications

**Note:** Textured paver and patio stone surfaces require a buffer between the plate compactor and the paver surface to prevent scuffing. Refer to County Materials' Interlocking Concrete Paver or Slab Installation Guidelines, or contact County Materials for information.
