H₂O Pro Pavers®
Permeable Paving Units

H₂O Pro Pavers are manufactured in three dimensionally compatible sizes with hidden spacers.
H₂O Pro Pavers® accommodate high pedestrian areas and wheelchair traffic, making them a suitable option for entrances, walkways and retail courtyards. Their 3⅛" thickness also withstands heavy low speed vehicular loads.

</table>

- Installed joint dimensions = 10 mm (⁷⁄₆₄")
- Installed open area/layer = ±9.1% (depending on pattern)

### H₂O Pro Pavers® Permeable Layer Patterns

**Note:** The 4" x 8" size of H₂O Pro Pavers are manufactured in a herringbone layer pattern that easily accommodates mechanical installation. Units can also be installed in many different patterns by hand.

**Note:** 4" x 4" fillers (see black squares in illustration for layer pattern "A") are used to keep the integrity of a layer when placed by a machine. They are provided at no charge and not sold separately. If 4" x 4" fillers are used in a pattern and more are needed, installers can cut 4" x 8" pavers in half and install where needed.
