County Block® Retaining Wall System

Gray

- Calculate the number of:
  - County Block Standard units needed: SF x 1.5
  - County Block Jumbo units needed: SF x 1.05
- Calculate the equal number of both sizes blended into a County Block wall: SF divided by 1.61

Designed with versatility in mind, County Block® Retaining Wall System is an impeccable solution for planting beds, steps or multi-level terraces. Installation is simple with its pin system. When filled with aggregate, the cored units provide one of the strongest and longest lasting connections available without the hassle or costs of mortar, special equipment or hard-to-find tools.

Crafted in a split face or rustic finish, County Block units harmonize with County Materials’ line of landscaping products. Manufactured with high-strength and low absorption concrete and natural elements, the County Block Retaining Wall System is designed to withstand weather extremes while offering years of maintenance-free beauty.

The color photos shown were prepared with careful attention to accuracy. However, colors shown may vary from actual hues and should only be used as a guide. Refer to actual product samples for final color selection. Because concrete units are manufactured with high-quality, naturally-mined aggregates and materials, variations in color or shading should be expected in products that are manufactured at different times and in units having different shapes. This color or shading variation is acceptable in the industry.
