**Strength Meets Sophistication**

Premier Ultra® Burnished Masonry Units are the optimal solution for concrete masonry construction. Their ground surface reveals a mix of natural aggregates that offers the ultimate in durability and refined beauty.

Manufactured to have high fire resistance ratings, exceptional acoustic ratings and to withstand abuse – Premier Ultra® Burnished Masonry Units are specified for a multitude of exterior and interior applications. Our manufacturing process helps prevent efflorescence by using special additives in the mix design.

Premier Ultra® Burnished Masonry Units are the high-performing construction material of choice for discriminating architects and designers around the country.

## An Economical and Elegant Choice

Premier Ultra® Burnished Masonry Units were designed with project versatility and boldness in mind. Burnished Units are integrally colored and their surface is ground smooth to reveal natural aggregates for a result that replicates the look of hand cut stone or granite for a fraction of the cost. The timeless beauty of natural aggregates elevate a project with sophisticated character.
