

Fluted Block

SHAPES AND SIZES

FLUTED BLOCK

FLUTED concrete masonry units enhance exterior and interior walls with **striking, vertical precast lines**. The units emphasize major structural elements and richly elevate a large building to one that adds to and complements its surroundings. Unique to FLUTED units are the ribs that extend from the general wall surface to create increased projection and shadowing effect and give a building added distinction.

Fluted Splitface

NOTE: Flutes extend from the block face 2³/₁₆"
