

Staircases & Landings

A Fast, Easy, and Durable Staircase Solution

Manufactured in the USA by County Materials

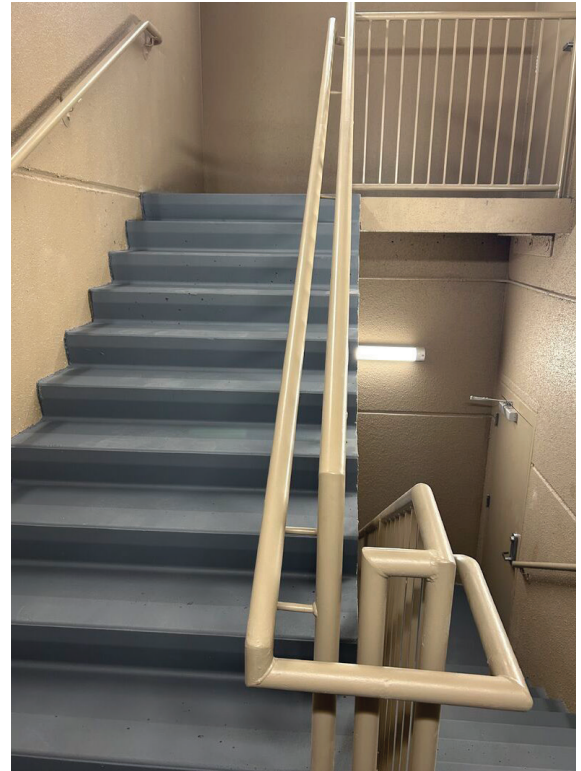

Accelerate construction projects and improve jobsite safety with precast concrete staircases and landings. County Materials' Staircases and Landings seamlessly integrate with our Precast Stair Shafts, providing an all-inclusive staircase system. Production can happen concurrently with site preparation to cut weeks from the construction schedule.

Upon installation, precast staircases provide safe access to upper stories for inspectors, first responders, and tradesmen, eliminating the risk and expense of temporary ladders, stairs, or scaffolding.

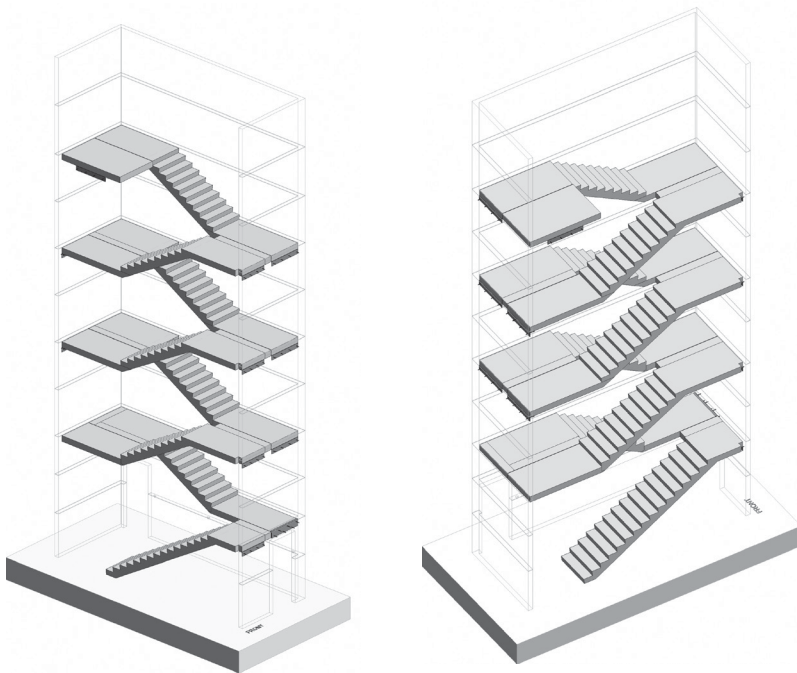

By combining staircases and stair shafts under a single-source contract, County Materials simplifies coordination, minimizes administrative burden, and streamlines inspections. Additionally, our code-compliant design requires fewer inspections, leading to less downtime and faster progress.

Consider the Advantages

- Cleaner, safer construction sites
- Accelerated construction
- Durable, long-lasting solution
- Improved safety
- Reduced inspections

Staircase & Landing

Applications

- Manufacturing facilities
- Office buildings
- Self-storage
- Assisted living facilities
- Independent living facilities
- Student housing
- Military barracks
- Apartments
- Hotels
