

Traffic Barriers

Protect large-scale infrastructure projects with cost-effective traffic barriers manufactured by County Materials. Precast concrete traffic barriers deliver dependable solutions for roadway safety and traffic control, protecting motorists, construction zones, and infrastructure.

Units are manufactured to meet stringent DOT standards, ensuring compliance, durability, and long-term performance. County Materials' precast traffic barriers are manufactured in certified facilities with consistent quality control, ensuring reliability across various applications.

Advantages

- High-volume automated production
- DOT-compliant quality
- Reduced lead times
- Reduced labor costs
- Regional manufacturing footprint
- Consistent quality from certified plants

Specifications

- Available in gray, safety yellow, and custom paint options
- Product sizing varies by state according to DOT specifications
- MASH Rated
- NPCA Certified Plants

Applications

- Highway construction
- Pedestrian traffic control
- DOT-compliant, state-specific designs
