

Perimeter Walls

Manufactured in the USA by County Materials

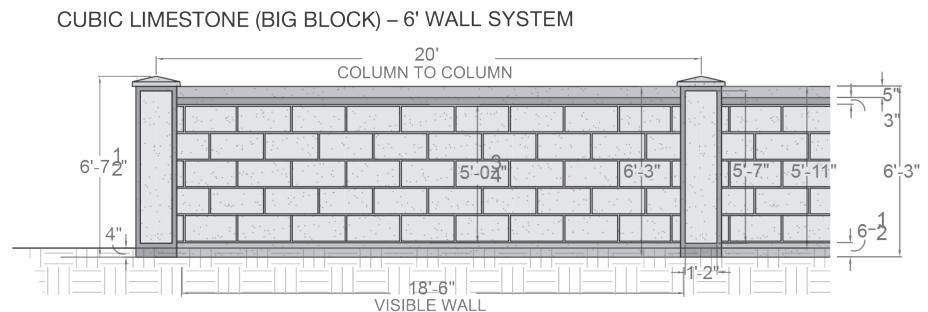

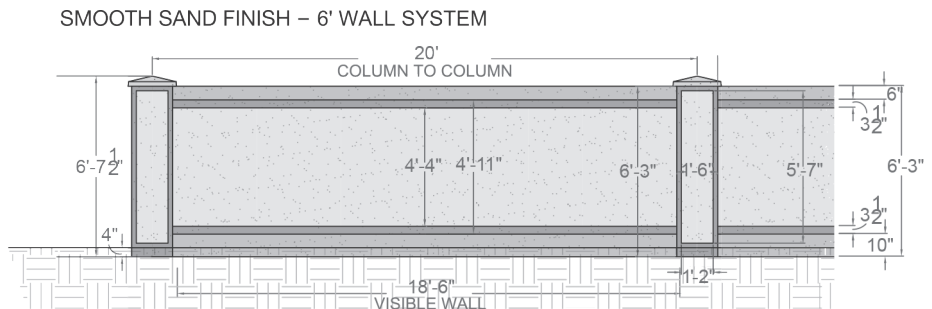

County Materials' Perimeter Walls (Patent Pending) deliver a precast solution that simplifies construction while elevating security and appearance. Ideal for gated communities, HOA boundaries, and developer projects, these walls combine high-strength concrete with refined finishes. Manufactured in NPCA-certified facilities, each panel assembly, inclusive of the foundations and supporting columns installs in minutes—not days—eliminating on-site curing, reducing inspections, and keeping projects moving on schedule with predictable results.

6' Smooth Sand Finish

6' Cubic Limestone

Specifications

- Available textures: Smooth Sand Finish and Cubic Limestone with additional designs soon to be available
- Choose from multiple colors
- Size: 6 FT, 8 FT

Advantages

- Precast foundation allows for faster setup and speed of installation
- Manufactured with 6,500 psi concrete for long-term, durable performance
- Available in a range of color options and aesthetics
- Concrete outlasts wood and PVC alternatives and is built to withstand Florida's wind-load requirements for hurricane-prone regions

Your Full-Service Partner

County Materials Corporation is your trusted source for reliable concrete construction solutions. Our long-lasting products are quality tested, readily available, and easy to install. Count on us to deliver Perimeter Walls that help meet the most demanding project schedules.
