Physical Security Walls

Manufactured in the USA by County Materials Corporation

County Materials' Physical Security Walls are a durable, weather-resistant solution ideal for various applications, including screen walls, security walls, and perimeter walls. Manufactured in the USA at PCI and NPCA-certified facilities, these concrete walls feature integrated precast foundations that eliminate onsite pouring and curing time, allowing installation to be completed in hours—not days. Buried panels prevent under-fence breaches, providing complete perimeter security and long-term performance. Developed for efficiency and long-lasting performance, precast walls are ideal for critical infrastructure and high-security sites.

Advantages

- Level 10 ballistic rating exceeds Department of Homeland Security requirements, delivering proven impact resistance and perimeter protection for high-security facilities.
- Precast panels eliminate on-site pouring and curing delays, accelerating installation while reducing labor, inspections, and weather-related schedule risks.
- Buried panels installation prevents under-fence breaches, providing complete perimeter protection and enhanced site security.
- Fast precast installation keeps projects on schedule while meeting performance, safety, and security requirements.
- High-strength panels manufactured from 6,500 psi concrete that deliver unmatched durability, strength, and long-term performance.
- Customizable design options combine high-security performance with architectural appeal.

Physical Security Walls

Specifications

- Color: Grey
- Sizes: 6", 8"
- Textures: Smooth Sand Finish, Cubic Limestone
- Manufactured in the USA

Applications

- Utility substations and power plants
- Water treatment facilities
- Infrastructure protection
- Multifamily security and site protection

Smooth Sand Finish – 8' Wall System

Cubic Limestone (Big Block) – 8' Wall System

Your Full-Service Partner

County Materials Corporation is your trusted source for precast building components. Construction professionals rely on County Materials to support them through every phase of construction, utilizing the highest quality products. Our team delivers satisfactory results with extensive quality assurance testing before, during, and after casting.

COUNTY MATERIALS CORPORATION

Proud to be American based and American made since 1946
